

MADE IN BRAZIL

PORTA CABOS

IN MINING

METALLIC, PLASTIC AND TROLLEY
CABLE CARRIES.

Porta Cabos Industria e Comercio Ltda., founded in 2002, dedicates itself to offer a wide range of products, as well as solutions for automation, for the protection of cables and hoses in motion, manufactured entirely in its factory in Brazil.

METALLIC CABLE CARRIERS

METALLIC CABLE CARRIERS STANDARD SERIES

The standard series metallic cable carriers' side structure consists of double links, manufactured in structural galvanized or stainless steel.

METALLIC CABLE CARRIERS SIMPLEX SERIES

The simplex series metallic cable carriers' side chains consisted of single links manufactured in structural galvanized steel.

METALLIC CABLE CARRIERS CLASSIC SERIES

The classic series metallic cable carrier's side structure consists of welded carbon steel links.

PortaCabos

The solution for your application

PLASTIC CABLE CARRIERS

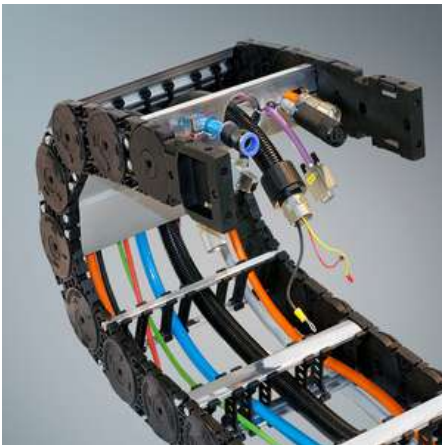

NYLON CABLE CARRIER BASIC SERIES

Nylon injected links reinforced with fiberglass. The links have removable stays that ease the insertion and/or maintenance of cables and hoses.

NYLON CABLE CARRIER UNIBLOC SERIES

Nylon injected links with fiberglass. Its monobloc structure ensures a greater stability when applied to long lengths.

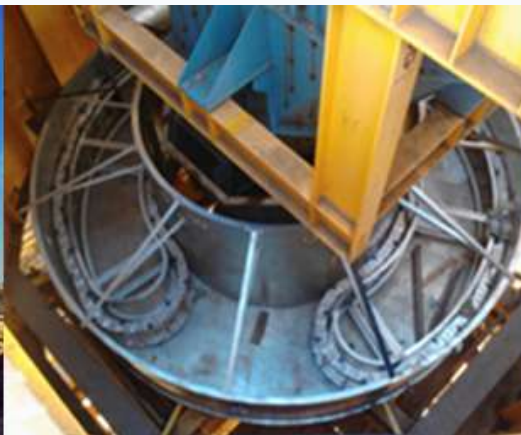

HYBRID CABLE CARRIERS KOMBINATA SERIES

The carriers in this series combine the nylon injected links reinforced with fiberglass, with the metallic aluminum stays that enable millimetric adjustments in its width.

CABLE CARRIERS

In business for 20 years, Porta Cabos is one of the largest South American manufacturers of cable carriers and festoon systems for the Mining segment.

- High-tech metallic cable carriers specialist;
- Slow friction and high resistance sliding system for straight or circular (< 360°) applications.

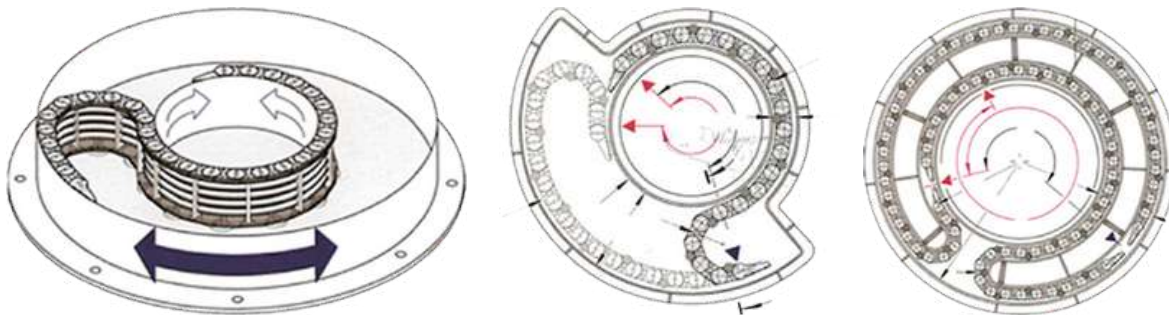

METALLIC CABLE CARRIERS

ROTATING MOVEMENTS

For machines with rotating movements.
The steel cable carrier is assembled in a guide channel with intern rings.

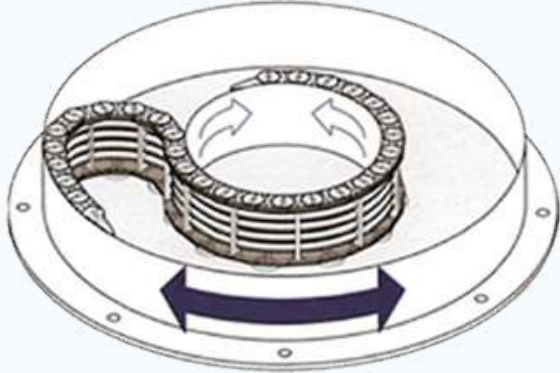

The schematic illustrations show the characteristics and dimensions of the steel cable carriers adjusted according to the equipment

PortaCabos

The solution for your application

TROLLEYS CABLE CARRIER

Porta Cabos has a line of trolleys and its accessories (Festoon System) that ensure the safe motion of cables and hoses.

TROLLEYS CABLE CARRIER

- Manufacturer of cable trolleys - festoon systems for application in harsh environments.
- High resistance;
- Low maintenance;
- Bears high load;
- Engineering specialized in consulting, development of projects, manufacturing, assembly supervision and technical support.

We are very attentive when it comes to understanding and better meeting our customer's needs. For such, we have an engineering department entirely dedicated to this mission; with a team that has been trained to listen to our customers, offer solutions, manufacture, supervise the installations and look after the post- sale services.

THANK YOU!
